

**COVID-19**

# Safety Signage.

Essential workplace signage to help prevent the spread of COVID-19.

**To order please call: 01207 284 284**

# Safeguard your workplace.

**As we adjust to going back to work, it is important that your colleagues and customers are made aware of the new safety procedures set in place.**

In an effort to prevent the spread of COVID-19 and save lives it is advisable to display essential safety signage. We can provide signage solutions ranging from pull up banners, outdoor banners, floor vinyls to washroom snapframes.

**Stop the spread**

## Count to twenty.

We can all help the spread of COVID-19 through simple personal hygiene measures.

Washing your hands for a minimum of 20 seconds with soap and water or using alcohol-based hand rub kills viruses that may be on your hands.

Stop the spread

Item no: Poster001

## Follow the steps.

Follow these simple steps for a minimum of 20 seconds.

1. Wet hands with water.
2. Apply enough soap to cover all hand surfaces.
3. Rub hands palm to palm.
4. Right palm over left hand, interlaced fingers.
5. Fingers to palm, fingers interlocked.
6. Back of fingers to opposing palm, fingers interlocked.
7. Rotational motion of right and left thumb.
8. Rotational motion with clasped fingers, in palm.
9. Rise hands with water.
10. Dry thoroughly with a towel.

Stop the spread

## Protect yourself.

Prevent the spread of COVID-19 through simple personal hygiene measures.

**Wash your hands frequently.** Regularly and thoroughly clean your hands properly with soap and water or an alcohol based hand rub. Washing your hands with soap and water or using alcohol-based hand rub kills viruses that may be on your hands.

**Avoid touching eyes, nose and mouth.** Hands touch many surfaces and can pick up viruses. Once contaminated, hands can transfer the virus to your eyes, nose or mouth. From there, the virus can enter your body and can make you sick.

**Make sure you, and the people around you, follow good respiratory hygiene.** Droplets from your cough or sneeze spread the virus. By following good respiratory hygiene, you protect the people around you from viruses such as cold, flu and COVID-19. This means covering your mouth and nose with your bent elbow or tissue when you cough or sneeze. Then dispose of the used tissue immediately.

**Feeling unwell?** If you have a fever, cough and difficulty breathing, seek medical attention and call in advance. Follow the directions of your local health authority.

Stop the spread

Item no: Poster003

## 2 metres apart.

Please maintain at least 2 metres distance between yourself and anyone else.

In an effort to stop the spread of the COVID-19, please continue social distancing within the building at all times.

## Feeling unwell?

**If you develop a fever and a continuous cough on site please inform a supervisor at a safe distance and then leave the premises immediately.**

- Stay at home for 7 days from when your symptoms started, after 7 days, if you do not have a high temperature, you do not need to continue to self-isolate and can return to work.
- If you still have a high temperature, keep self-isolating until your temperature returns to normal. You do not need to self-isolate if you just have a cough after 7 days, as a cough can last for several weeks after the infection has gone.
- Do not go to a GP surgery, pharmacy or hospital.
- If you feel you cannot cope with your symptoms at home, or your condition gets worse, or your symptoms do not get better after 7 days call NHS on 111.
- If possible, you should not go out even to buy food or other essentials, and any exercise should be taken within your home.
