site**

Movascreen Lite offers a quick screening and partitioning solution to help promote social distancing.

Ideal for public spaces and commercial environments such as supermarkets, transport hubs, offices and warehouses to promote safe queue control or to protect individuals working in close proximity.

The lightweight temporary free-standing partition comprises of a panel which is made from anti-bacterial easy clean PVC and firmly secures to a durable powder coated aluminium frame, making Movascreen Lite very flexible and hygienic in its use.

Anti-bacterial materials:

The panel is made from our Dart PVC range which offers exceptional performance qualities. It is easy to wipe down and sanitise, has full Biosafe accreditation due to its anti-microbial properties and is also fire retardant to BS5867 Part 2 Type B. The aluminium frame is also powder coated so it can be easily wiped down with a detergent solution.

[Please see page 2 for the colour range >>](#)

Bespoke sizing and colours:

Movascreen Lite is typically available in sizes of 1.5m high by 1.5m and 2.5m in length as a complete solution comprising of a frame with two feet and one panel but we can tailor any order to your requirements. We also offer the PVC panel in a range of 14 colours so you can choose a colour to suit your space.

Clear panel option :

Want to be able to have a clear line of vision? We also offer a clear PVC panel option. This is secured to the standalone posts by strong heavy duty velcro, making the solution very adaptable to your changing needs. You can remove the PVC panel and replace with another length or a different colour, as well as configure multiple panels into a variety of layouts as and when required. You can also order additional or replacement individual panels and frames.

An agile solution:

Movascreen Lite can be erected very quickly and it's use of lightweight materials make for a very agile temporary screening solution which can be used in a variety of different settings.

Quick to assemble:

Movascreen Lite requires no specialist fitting skills and can be quickly assembled by two people in less than a minute.
